

Two Pipe Direct Return System

PRODUCT CODE:
VA-400405
Automatic bypass

PRODUCT CODE:
V-1773481P
Shown here are
PEX valves

PRODUCT CODE:
V-RSW8
To cover
exposed pipe

PRODUCT CODE:
V-C16600
Chrome plated drop tube
24" long

PRODUCT CODE:
VA-ST1773367C
Straight copper or
chrome pipe valve set
for towel warmer

The two pipe direct return pipe system is the most popular of piping systems using a common supply and return. As flow requirements decrease the pipe diameter can also be decreased. Using the lock shield valves provided it is possible to accurately balance the system to achieve an optimum flow rate. The modulating thermostatic valves will control each individual space for maximum comfort and efficiency. This information is intended as a guide only. Use competent qualified installers for pipe sizing and installation.
