

Series Piping With Thermostatic Radiator Control

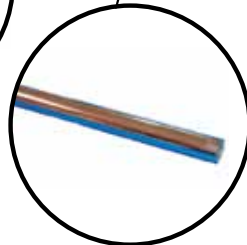

PRODUCT CODE:
VA-400405
Automatic bypass

PRODUCT CODE:
VA-1624201P
Angle connectors
for PEX pipe

PRODUCT CODE:
V-RSW8
To cover
exposed pipe

PRODUCT CODE:
V-C16600
Chrome plated drop tube
24" long

PRODUCT CODE:
VA-ST1773367C
Straight copper or
chrome pipe valve set
for towel warmer

The series piping system using a thermostatic radiator valve to control the zone. One of the most cost effective ways to install a radiator system. Care should be taken to size radiators according to the water temperature drop to avoid under sizing the last few radiators in the loop. This information is intended as a guide only. Use competent qualified installers for pipe sizing and installation.
